

AMENDMENT TO THE CLAIMS

Claims 102, 103, 108-111, 116 and 117 are currently amended, claims 104-107, and 112-115 are cancelled. New claims 118-128 are added according to the specification, in which no new matter has been added. This listing of claims will replace all prior versions, and listings, of claims in the application.

Claim 102 is currently amended to properly add the word "A" as addressed in the subject Notice of Non-Compliant Amendment. This correction will replace all prior versions, and listings, of the claims in the application.

Listing of Claims

102. (Currently amended) ~~An anti-inflammatory and anti-pruritic~~ A topical skin preparation for treatment of psoriasis comprising glucosamine in an emollient base.

103. (Currently amended) The topical skin preparation of claim 102, wherein ~~the topical skin preparation is used to treat insect bites on human skin~~ a percentage in weight for glucosamine in the topical skin preparation is at least 10%.

104. (Cancelled)

105. (Cancelled)

106. (Cancelled)

107. (Cancelled)

108. (Currently amended) The topical skin preparation of claim 102, further ~~including~~ comprising at least one extract antioxidant from an herbal source.

109. (Currently amended) The topical skin preparation of claim 108, wherein the herbal source is ~~witch hazel~~ selected from the group consisting of olive leaf, Oregon grapeseed, and witch hazel.

110. (Currently amended) ~~An anti-inflammatory and anti-pruritic formulation~~ A topical skin preparation for treatment of a T-cell mediated skin disorder comprising glucosamine in an emollient base. ~~, (wherein the formation may be suitable for topical application on human skin, and further wherein the formulation at least partially suppresses, local to the area of topical application, the production of at least one cytokine that stimulates the proliferation of apoptosis-resistant keratinocytes.)~~

111. (Currently amended) The ~~formulation~~ topical skin preparation of claim 110 wherein ~~the formulation is used to treat insect bites on human skin~~ a percentage in weight for glucosamine in the topical skin preparation is at least 10%.

112. (Cancelled)

113. (Cancelled)

114. (Cancelled)

115. (Cancelled)

116. (Currently amended) The ~~formulation~~ topical skin preparation of claim 110 further ~~including~~ comprising at least one ~~antioxidant~~ extract from an herbal source.

117. (Currently amended) The ~~formulation~~ topical skin preparation of claim 116 wherein the herbal source is ~~witch hazel~~, selected from the group consisting of olive leaf, Oregon grapeseed, and witch hazel.

118. (New) The topical skin preparation in claim 116, wherein the at least one extract is oleuropein from olive leaf.

119. (New) The topical skin preparation in claim 116, wherein the at least one extract is berberine from Oregon grapeseed.

120. (New) The topical skin preparation of claim 110, wherein the T-cell mediated skin disorder is psoriasis.

121. (New) The topical skin preparation of claim 110, wherein the T-cell mediated skin disorder is induced by an insect bite.

122. (New) The topical skin preparation of claim 110, wherein the T-cell mediated skin disorder is atopic dermatitis.

123. (New) A method for treating a T-cell mediated skin disorder, comprising the steps of:

providing a topical skin preparation in an emollient base, the topical skin preparation further comprising glucosamine and at least one extract from a herbal source; and

topically applying the topical skin preparation to an affected skin area of the skin disorder.

124. (New) The method in the claim 123, wherein the T-cell mediated skin disorder is selected from the group consisting of psoriasis, atopic dermatitis, and an allergic skin reaction from insect bites or allergens.

125. (New) The method in the claim 123, wherein the herbal source is selected from the group consisting of olive leaf, Oregon grapeseed, and witch hazel.

126. (New) The method in the claim 123, wherein the one extract is oleuropein from olive leaf.

127. (New) The method in the claim 123, wherein the one extract is berberine from Oregon grapeseed.

128. (New) The method in the claim 123, wherein a percentage in weight for glucosamine in the topical skin preparation is at least 10%.
